

EcoSpark Educational Videos

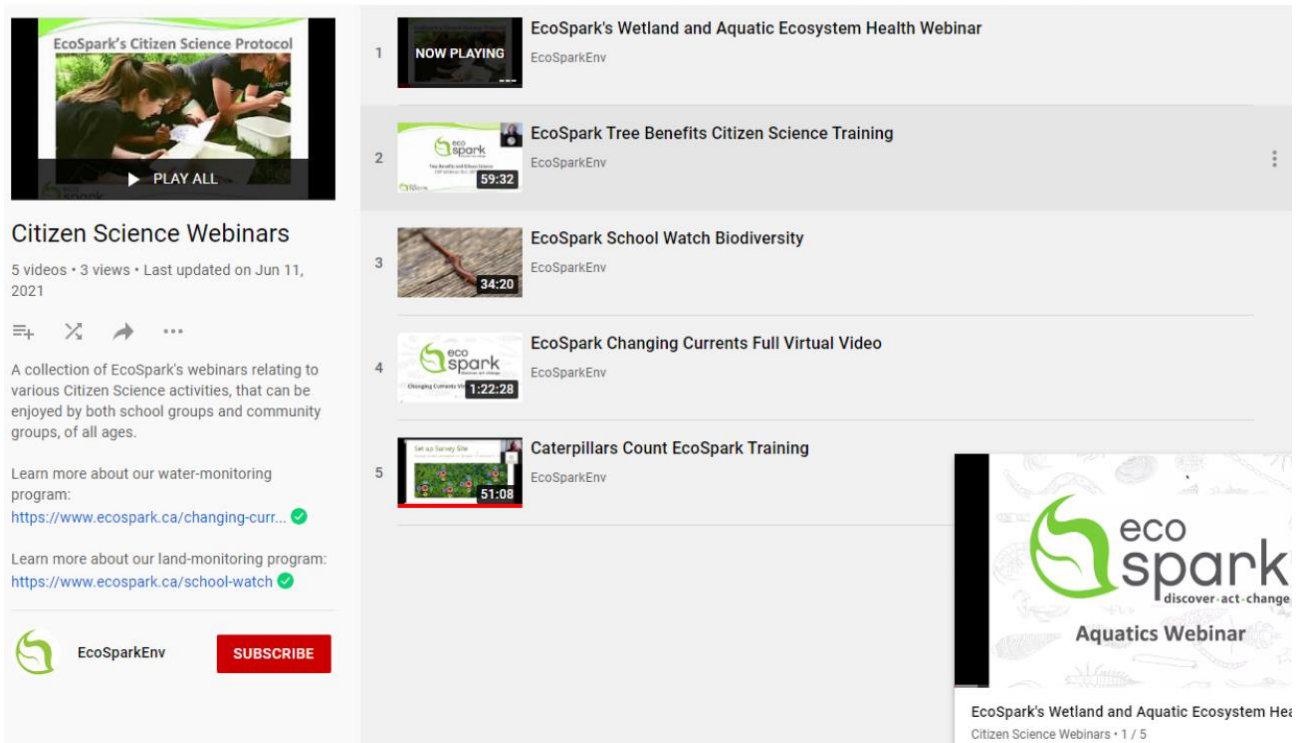

<https://www.ecospark.ca/>

The image shows the YouTube channel page for EcoSparkEnv, which has 16 subscribers. The channel is focused on environmental education, specifically on benthic macroinvertebrates. The main video featured is a playlist titled "Benthic Macroinvertebrates Key Identification Features". Below the title, there is a description: "Take a close look at important aquatic bugs known as Benthic Macroinvertebrates (BMIs) and their key identification features. These BMIs play an important role in assessing water quality,". The video player shows a grid of five video thumbnails with their respective durations: "Oligochaeta (Aquatic Earthworm) Key ID Features" (0:36), "Aquatic Moth (Lepidoptera) Key ID Features" (0:36), "Beetle Larvae (Coleoptera) Key ID Features" (0:40), "Beetles (Coleoptera) Key ID Features" (0:58), and "Blackfly Key ID Features" (1:00). A larger thumbnail for "Aquatics Webinar" is also visible on the right side of the page.
